

DERMIO CARE® FACIAL

Results of study

DR. HAEWOONG LEE
LOUIS DERMATOLOGIC CLINIC
KOREA

CASE 1, FEMALE, 43, FUNGAL MYCOSIS

TREATMENT ONLY WITH DERMIO CARE FACIAL,
RESULT AFTER 30 TREATMENTS

13.06.2014

13.07.2014

13.08.2014

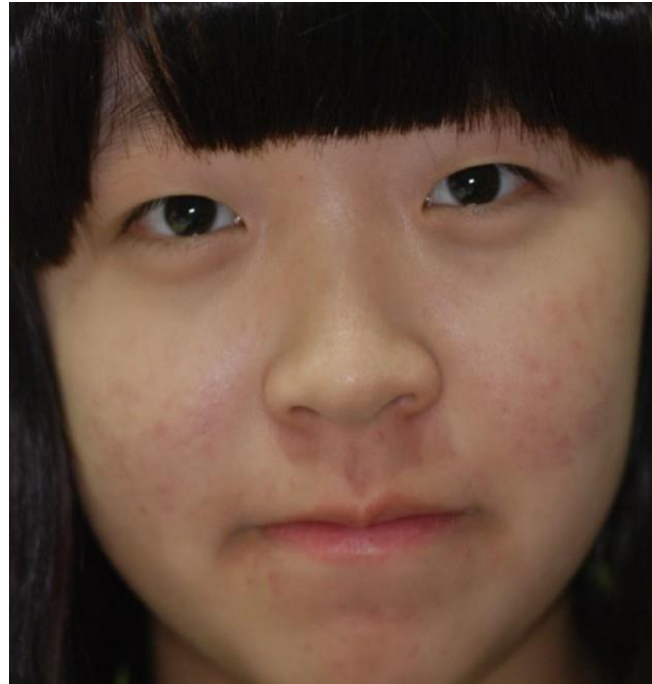

13.11.2014

CASE 2, FEMALE, 12, ACNE

TREATMENT ONLY WITH DERMIO CARE FACIAL,
RESULT AFTER 12 TREATMENTS

Before

After

CASE 3, FEMALE, 22, HERPES SIMPLEX

TREATMENT ONLY WITH DERMIO CARE FACIAL,
RESULT AFTER 10 TREATMENTS

Before

After

IONS AND CANCER THERAPY

Dr. Lee also verifies that ions strongly support a drug-based cancer therapy and the positive results have increased greatly. The ions activate the production of NK cells. These cells are primarily responsible for a positive healing progress as they are reproduced by the body as „new healthy cells“ and thus oppose the cancer as killer cells.

The study also verifies that tumour growth was decreased and the frequency of metastasis formation was reduced.

So ions do not only have a positive effect on external appearance but also on the promotion of human health.

The only available therapy device world-wide is the DERMIO CARE® from Weyergans.
